## Continuing ESD after 2014

The Global Action Programme (GAP) on Education for Sustainable Development (ESD) will focus on action on the ground. The GAP will be launched at the World Conference on ESD in November 2014 in Aichi-Nagoya, Japan.

Based on countries' commitment at the 2012 United Nations Conference on Sustainable Development (Rio+20) to strengthen ESD beyond the end of its Decade (2005-2014), UNESCO, in consultation with Member States and relevant stakeholders, developed the [Global Action Programme on ESD](#).

The GAP was endorsed by UNESCO's 37<sup>th</sup> General Conference (November 2013) as the follow-up to the UN Decade of ESD. It will also be brought to the attention of the UN General Assembly in 2014 for consideration and appropriate action.
