

iuventum

Education Centers

What is the basic concept?

We care about global education and the world. The vision of iuventum is to provide global education across generations. Our main focus is on Education for Sustainable Development (ESD).

The ESD Forum was established in 2011, recognized by the Japan Council on the UN Decade of Education for Sustainable Development (ESD-J) and the German Commission for UNESCO - Secretariat, UN Decade of Education for Sustainable Development, and supported by the Ministry of Economy, Trade and Industry (METI), Japan, and the Ministry for Family Affairs, Senior Citizens, Women and Youth (BMFSFJ), Germany.

Now many activities take place online. However, human interaction takes place in person, onsite. We intend to have our own facilities in key locations to provide global education onsite.

We want to establish own education centers in 4 countries: US, Germany, Japan (3 major exporters) and Bhutan (because of going 100% organic, focusing on Gross National Happiness and on Sustainable Development).

Who and what to seek?

- Donors
- Real estate (land, building, office; preferably in Arkansas, Bavaria, Nagano and Paro)
- Contributions to provide ESD, advancing high quality education (Global Goal / SDG 4)
- Support may be required by administrations and governments in Bhutan, Germany, Japan and the US

Why and how to do it?

- Humanity faces global challenges such as pandemics, economic turbulences and climate change
- ESD / Education is inspiring people from all countries to solve global challenges

**iuventum relates to the 4 Latin words iuventus, ingenium, mundus and universitas.
It shall be associated with the English words youth, natural capacity, world and univers(al)ity.**
